

Magna-Seal Postcard & Business Card Magnet

Item: 2812 003

Magnets are laminated to the postcards under a laminate coating. The magnet can be removed only once the seal is broken.

Magna-Seal™ postcards give you extra impact in your bulk mail marketing.

Your **business card magnet** is laminated to the surface of the card, giving you the most convenient way to get your magnet & message into your customer's hands. Studies show that postcards with magnets attached are much more widely read than ordinary direct mailers.
